

CTC

Allotment Inspection report

13th April 2022

Present: Gareth Epps, Nick Potter, Dan Raymond-Barker, Lisa Wilkinson, John Moore, John Marsh

Evenlode Close allotments:

No issues with plots/cultivation.

John Marsh raised concern about drainage/soakaway which has resulted in a ditch being dug on his plot. This makes part of his plot unusable.

Clerk will contact Cottsway and WODC to request action on this as it has been ongoing for several months.

Enstone Road allotments:

John Marsh raised concern over one of the plots. Dan Raymond-Barker will speak to the tenant although the allotment committee felt that there were no real issues as the plot was being cultivated.

A small triangle of uncultivated land was identified as a possible new plot. The TC would have to clear it first. The clerk will endeavour to contact the owner of the storage containers that are located on it and request them to move their items. The clerk will contact the tenants of the adjacent plot first.

Dan Raymond-Barker asked if tenants could be encouraged to donate any surplus vegetables that they have e.g. to Cornerstone.

Meeting closed: 8pm
