January 2024

Explanation to Town Council budget for 2024-2025

1. Following surveys on Nine Acres Recreation Ground, the pitches need considerable renovation and maintenance work.

£10,000 per year is required to build up a layer of soil above the stone to make the pitches safe to play on.
2. The external auditors have advised that the level of reserves for the Town Council are too low. They have requested that the Council starts to build up its reserves. Therefore, £10,861 has been allocated to start this process off.

This results in a precept rise of 11.45% equating to an annual bill (for a Band D household) of £105.01.
