**Proposal:**

1. An assessment of the current solar panel installations around Charlbury to help residents understand the potential cost implications, financial and other benefits to install solar panels.
2. Canvass existing residents that have solar panels, for their experiences to pass on this information to their neighbours in similar properties.
3. To understand the potential financial benefits of multiple on similar properties at the same time.
4. The assessment to include the type of solar panel and whether battery support has been installed with minoring performance with cost savings.
5. Seek technical support from WODC and OCC
